4. POLICY CONTENT

**Principles**

A culture of academic integrity, consistent with the University’s values, is fundamental to the University’s operations and reputation. Academic integrity involves upholding ethical standards in all aspects of academic work, including learning, teaching, Scholarship and research. At its core, academic integrity calls for a commitment to the fundamental values of honesty, trust, fairness, respect, responsibility and courage, even in the face of adversity. From these values flow principles of behaviour that are foundational to the work of the whole academic community ([International Centre for Academic Integrity, 2014](#)).

The following principles underpin academic integrity at the University:

4.1 Academic integrity will be promoted through holistic and multi-stakeholder engagement and comprehensive education:
a) The University is committed to ensuring all staff and Students understand the importance of academic integrity, what constitutes Academic Breach and Academic Misconduct, and the consequences of Academic Breach and Academic Misconduct.

b) The University is committed to guiding and supporting staff and Students to undertake learning, teaching and research activities with integrity at all times through a range of resources, education and training activities.

c) Unless exempted by the Senior Deputy Vice-Chancellor, the University requires the successful completion of an Academic Integrity Module by all:
   i) staff involved in University research;
   ii) Teaching Staff involved in teaching and/or research supervision, other than guest and adjunct lecturers; and
   iii) Students commencing at the University irrespective of mode or location, within the first teaching period.

d) Course and Unit assessment regimes will be designed to minimise the potential for Academic Breach and Academic Misconduct, in accordance with the principles underpinning the University’s Assessment Policy (assessment that is learning-centred, globally relevant and transformational) and strategies outlined in the Assessment, Examination and Moderation Procedures.

4.2 Detecting and responding to Academic Breach and Academic Misconduct will be co-ordinated, evidence-based and technologically-supported:
   a) The University will maintain and support contemporary technologies and business systems, which will assist in establishing a culture of academic integrity.
   b) All staff involved in the detection and response to academic integrity matters will be supported through ongoing training to respond in a fair, consistent, transparent and timely manner in accordance with the University’s applicable statutes, rules, and procedures, including the Academic Misconduct Rules (Students), and the Academic Misconduct Procedures.

4.3 Quality improvement will be driven through the ongoing review of institutional data and the effectiveness of implemented actions, in order to advance a culture of academic integrity, as set out further in 4.4 below.
